SATYA

HEIGHT OF PRECISION

Satya refers to 'truth' in Sanskrit, a coherence with reality in one's thoughts, words and actions. These principles of coherence characterise Satya amplified loudspeakers in the technology used and the performance delivered.

## PRECISE

The modeling calculates the loudspeaker system in impedance, volume velocity, membrane displacement, and sound pressure anywhere in space, amplitude, phase, and group delay.

Each speaker pair is securely packaged in two custom flight cases, specifically designed to ensure optimal protection during storage and transport.
